

Park Department by-laws established for the selection of food vendors:

1. The selection process, on a space available basis, for a new vendor, is dependent upon the following rules and conditions and is administered by the coordinator, and park department personnel:
 - A. The food items the vendor sells:
 - a. Unique vendor created food items are encouraged and decidedly preferred, as long as they do not conflict with other vendors exclusive items.
 - b. Each vendor may identify up to 2 items that are protected and exclusive to their concession. Food items essentially similar to those that are already protected will not be allowed.
 - c. Excessive duplication of general processed items, and/or absence of a unique item can be the reason for denial of vendor participation.
 - B. The appearance and size of the vendor's booth or trailer and serving location.
 - a. The park department requires pictures of an applicant's booth to prevent contracting with an unattractive appearing operation.
 - C. The configuration and amount of space required for the vendor.
 - a. The amount of space available will be that of the previous vendor.
 - D. The amount of amperage and voltage the vendor requires.
 - a. The maximum amount allowed a vendor is 30amp, 220 volt.
 - E. There will be no more then 17 food spaces available. The park department may choose to have less.
