

*Park Department by-laws established for the governance of food vendors:*

1. Food vendors must be in compliance with all Vigo County Board of Health regulations.
2. Food vendors must abide by the following:
  - a. Keep your space and bordering area clean.
  - b. If a set up time is provided, arrive at that time.
  - c. Open and close daily at the specified times and remain open on the last day until the closing time provided.
  - d. You must operate your concession for the entire 10 days, unless you have been granted an exception by the park department.
3. Do not advertise or attempt to sell any items that are not included in your contract with the Terre Haute Parks and Recreation Department.
4. Maintain a mandatory minimum of 5 feet of space between you and the adjacent vendor so as not to confuse the customer during busy hours.
5. A food vendor, and/or his immediate family, may occupy up to 2 food spaces. The second space will be considered upon a space available basis according to the above by-laws for selection of food vendors.
6. Food vendors that occupy a second space must serve exactly the same menu as in the original space. When a food vendor has 2 spaces, he still has only 2 protected items.
7. Food vendors that remain in good standing with the Terre Haute Parks and Recreation Department will be asked to return the following year.
8. The company that provides the carnival rides has by contract reserved some exclusive food items for their use only.
